Lewis Stookey Attends Conference—

Lewis Stookey, musical director at Murphy High school, attended the three-day regional conference of the Progressive Education association, called at Alabama college, Montevallo, Ala., last week, to enable southern parents, teachers, supervisors and principals to give first hand information on the splendid and important movement and to discuss it with experienced teachers from progressive schools of the north.

Mr. Stookey has charge of music and singing in the demonstration school in progressive methods, grades 1 to 5, which the summer school of the college is presenting and which the conference visitors observed. A thousand visitors from Alabama, Louisiana, Mississippi, and Arkansas included Miss Natalie Simison and Miss Shelby Holbrook of Mobile. Miss Holbrook has remained at Montevallo to observe for two weeks longer in the demonstration school, which is similar to the Organic school in Fairhope, where she has taught. The demonstration will be open to visitors for three more weeks.

MARRIED WOMAN IN INDUSTRY IS THEME

Doing In Factory Work They
Once Did In Home, Career
Conference Told

MONTEVALLO, Ala. — Married women are merely following into the factory and office the jobs that their mothers once did in the home, Mrs. Chase Going Woodhouse, director of the Institute of Women's Professional Relations, Greensboro, N. C., said in a talk on "Marriage and Another Job," Friday night before the student career conference.

The conference, the first of its kind for girls only in the South, opened a three-day session Thursday to present to a group of 325 graduates from 100 high schools over the state, a resume of careers open to women, and the qualifications necessary for each.

Mrs. Woodhouse was the speaker at the three general sessions, which alternated with round-table group discussions.

The mechanical age, she pointed out, has taken from women the tasks that were traditionally household duties, such as making tallow for candles, spinning and weaving, making of clothing, and canning. Today the power company provides electric lights, the canning factory provides jellies and jams and fruits, and the textile mill does the spinning and weaving. The mechanical age has also put machinery into the home to lighten housework.

In many instances married women are working not because they want to do something unusual but because they need to make an economic contribution to the family, the speaker declared. From the trend in the past, it seems inevitable that more and more married women will be employed in industry, she added, giving statistics showing that 6 per cent of all married women were working in 1900 and 12 per cent in 1930. Or put another way, in 1900, 15 per cent of gainfully employed women were married, and in 1930, 29 per cent.

The married woman in industry has peculiar problems created by her double responsibility, among them being the fact that tradition and custom are against her even yet, and the difficulty that arises if she or her husband is offered a better position in a different city. Mrs. Woodhouse mentioned Mrs. Roosevelt, Secretary of Labor Perkins, and Mrs. Lillian Gilbreath as outstanding married women who were model homemakers and successful business women.

Mrs. Margaret N. Ormond, president, International Pilot Club, presided Friday night. A musical program was presented by Mieczyslaw Ziolkowski, professor of piano, and R. W. Ingalls, violinist and assistant professor of music, Alabama College.

The conference adjourned Saturday noon after a group of round-table discussions.

WOMAN'S PLACE IN NEW DEAL VIEWED

Gentler Sex Finding More And
More Places In Business
Life, Says Speaker

BY EDNA KROMAN
News Staff Writer

MONTEVALLO, Ala. — An increasingly greater percentage of women are being employed in gainful occupations, and women will more and more become a part of the business life of the nation, Mrs. Chase Going Woodhouse, director of the Institute of Women's Professional Relations, Greensboro, N. C., told an assembly of high school graduates gathered at Alabama College for a student career conference.

Mrs. Woodhouse spoke at the first general meeting of the conference Thursday night to approximately 325 girls from 100 high schools over the state. The conference will continue through Saturday morning.

After commenting on the economic reorganization of society, Mrs. Woodhouse lauded the experiment of the "New Deal" and declared that it will open many new vocational fields for women. With the increasing stress on social welfare, Mrs. Woodhouse said she believed women would find the business world more attractive and more interesting.

"Don't be bothered by tradition too much," the speaker urged. "Don't let the expression, 'nice girls don't do that,' hold you back from doing what you want to do. Every girl seeking a job needs two personal qualities, the ability to work with people and the ability to make adjustments to new situations, backed by a good general education."

Among the fields opening to women Mrs. Woodhouse mentioned public health nursing, adult education, department store work, art in business including designing, advertising, art and photography; traffic management in industry, engineering and phases of home economics.

Dr. O. C. Carmichael, president, Alabama College, welcomed the visitors to the conference, and introduced Mrs. Woodhouse. He pointed out that this is the first student career conference to be held in the South. Miss Rochelle Rodd Gachet, statistician with the Alabama Power Company, presided, and a program of organ music was presented by H. D. LeBaron, professor of music, Alabama College.

General sessions and round table discussions of various activities have been arranged, augmented by a series of diagnostic tests to determine individual interests and aptitudes. The tests include personality schedules, general mental abilities and occupation interest tests. They are under the direction of Dr. Minnie Steckel and Dr. Lillian Vickery of the college psychology department.

Women Urged To Study Economic, Social Changes

MRS. CHASE GOING WOODHOUSE

Mrs. Chase Going Woodhouse Of Greensboro, N. C., Is Visitor In City

Age-Herald July 8, 1934

The serious study of present day economic problems and situations by all intelligent women was urged by Mrs. Chase Going Woodhouse, director of the Institute of Women's Professional Relations, Greensboro, N. C., who was a visitor in Birmingham Saturday.

"One of the most necessary things of the day is for the intelligent woman to understand the economic organization of the society in which she is living, and its effect upon individual and social welfare, just as it is for a man," Mrs. Woodhouse said. "Women, intelligent women, should no longer consider it only a man's duty, any more than she would leave him to vote for the family. To be an intelligent citizen and voter, she needs to understand, and I mean really understand, economic problems and be informed on issues of the day. After all, our greatest problem today is to adjust our economic situation. We are a democracy in which our vote can be made to count."

Spoke At Conferences

Mrs. Woodhouse came to Birmingham from Alabama College, where she was the speaker at three general sessions at a student career conference for high school graduates. While in Birmingham she was the guest of Mrs. M. H. Sterne.

The Institute of Women's Professional Relations, Mrs. Woodhouse explained, might be called a liaison officer between the college and business. It seeks to find out from industry what fields, occupations, old and particularly new, are open to women, and the education and qualifications required for the work.

"Then we contact colleges and training schools, to obtain specific data as to where girls can obtain the training required for a particular work. We find that girls of educa-

tion want to go into worthwhile work, and we are trying to help them find the work they can do and the work that needs to be done. In addition to our occupational studies, we keep complete lists of fellowships available to women in both this country and Europe."

The institute issues a quarterly magazine called *Woman's Work*, which details what is being done by women in education, business, professions and politics, and interesting things women are doing.

The problem of the married woman in industry is being studied by the institute, and how to help replace the older woman in business who has been forced out of the work she is accustomed to doing, as well as the general problem of where women can find jobs, the director said.

Social Value Greater

"We find that the more we become mechanized, and the more things that are made in factories, the less the married woman can make in the way of an economic contribution to her home," said Mrs. Woodhouse. "We illustrate by saying that once women made candles in the home, but today there is the electric light bill to pay. So the married woman must get a pay check to replace the economic value she was once in the home. Her social value in the home is, if anything, greater today than ever. This is one of the problems that require study of economic situations by the intelligent women."

Among the studies recently conducted by the institute is that of dentistry as an occupation for women, and occupation in which art training is valuable. The dental study, which concerned the profession of dentistry and not of dental hygienist, Mrs. Woodhouse said, was conducted in cooperation with the American Woman's Dental Association. It showed that there is a definite place for women in this field, particularly for children's work and for institutional work.

Designing New Field

Designing is opening up as a broad field for women also, as manufacturers are employing people in increasing numbers to design furniture, electric light fixtures and other articles.

The institute is finding that business is becoming more and more interested in the consumer, which is opening up many new occupations for women with training in home economics. Mrs. Woodhouse added, Food manufacturing concerns want women with home economics training to do their advertising, which must combine the ability to write, either by preparing pamphlets or by radio programs, setting out attractive ways to use their foods. Home equipment manufacturers also want women trained in this field, so that they can, for instance, demonstrate how vacuum cleaners can be used in the home, or how to light the home more effectively. Or such women can cooperate with the engineers in the factory to

design a better product from the home-makers point of view.

The institute, established five years ago, is the only one of its kind in the country. It is supported by private subscription, and Mrs. Catherine Filene Shouse, wife of Jewett Shouse, is chairman of the board of directors. Its most active interests, the director said, so far have been in the South.

CAREERS SERVICE EXTENSION LOOMS

Older Women May Be Allowed To Profit In Alabama College's Program

BY EDNA KROMAN

MONTEVALLO, Ala.—An extension to older women of a service similar to that rendered high school graduates by the student career conference, sponsored by Alabama College, was recommended at a meeting of group leaders during the conference.

It was pointed out at the meeting that the rapid change in industry, due to technological improvements and economic adjustments, were forcing many older women from the home into business and making it necessary for many women already in industry to change their occupations. Many such women could be helped, it was believed, by vocational guidance conferences or in other ways.

The group leaders present for the student career conference were, in large part, representatives of women's business and professional organizations of Alabama. It was agreed to have a committee appointed by Miss Hallie Farmer, of Alabama College, who was general chairman in charge of the conference, to be composed of representatives of women's organizations, to investigate the possibilities for service to older women, and to recommend how this could be best rendered.

The student career conference, which was attended by approximately 325 graduates from 100 high schools over the state, concluded a three-day session Saturday. The conference was divided into general sessions for consideration of the broad aspects of women in business and industry, and into round-table group discussions of specific occupations and qualifications needed in each. The students and group leaders were guests of Alabama College during the conference.

Mrs. Chase Going Woodhouse, director of the Institute of Women's Professional Relations, Greensboro, N. C., delivered a series of talks at the three general sessions. She pointed out that the mechanization of production would necessitate women entering business and industry in ever increasing numbers, and stressed as general requisites for success, adaptability, good health and initiative.

The conference attracted attention throughout the South as being the first of its kind to be held for girls only, and was attended by officials from other colleges for women. Among these visitors were Dr. L. H. Hubbard, president, Texas College for Women, Denton, Tex.; Dr. Shelton Phelps, president, Winthrop College, Rock Hill, S. C.; Dr. M. A. Nash, and C. E. Fair, member of the board of regents, and B. H. Mayall, registrar of the Oklahoma State College; Miss Nellie Keirn, dean, Mississippi State College for Women at Columbus, Miss., and Dr. E. H. Scott, dean; Dr. Mary B. Brooks, of the Department of Education, and Miss Katherine Scott, of the department of English, Georgia State College for Women, at Millidgeville, Ga.

The round table discussions were presided over by members of the Alabama College faculty, and were led by widely known business and professional women of the state. The groups and the leaders included:

Business, Miss Hattie Lyman presiding; Miss Gertrude H. Ward, West Boylston Manufacturing Company, Montgomery; Mrs. Mabel V. Cheatham, New York Life Insurance

Company, Birmingham, and Miss Rochelle Rodd Gachet, Alabama Power Company, Birmingham, discussion leaders; health, Dr. Willena Peck presiding; Dr. Louise Branscomb and Miss Helen MacLean, Birmingham, leaders; library, Miss Abi Russel, presiding, and Mrs. Elyn Broomall Beaty, Fairhope, leader.

Walker Memorial Church Girls Tell Of Young People's Montevallo Assembly

GRACE DAVIS AND ROWE POYNTER

Ardent Workers Inspired By Study Enjoyed At Meetings Held At Alabama College

BY DOLLY DALRYMPLE

In conversation with Mrs. Keener W. Matthews, the lovely wife of Dr. Matthews, pastor of Walker Memorial Church, and his wonderful helpmate in his church work as well as social life, she mentioned with great enthusiasm two young girls who are members of their church, Grace Davis and Rowe Poynter.

Mrs. Matthews regards these two attractive young girls as a complete refutation of any adverse criticism of the younger generation, and points out that they are beautiful exponents of lovely young womanhood, and Christian fidelity and loyalty.

They have recently returned from the Young People's Assembly at Montevallo, and Mrs. Matthews said that their enthusiasm was so encouraging and their zest for church work so heightened through their contacts there, with the 500 or more young people in attendance, that she felt as if their experience would be an inspiration to other young folk if it was known.

So I promptly got in touch with the two young girls and asked them to tell me about the program at the assembly and just what they got out of it.

Eager and anxious to pass on to others the splendid results which accrued from the meeting at Montevallo, Miss Davis and Miss Poynter told me of the inspiration they got from it personally, and how anxious they are to renew their efforts in their work, and help others to see the

great possibilities presented today to the young folk in Christian folds.

More Confidence

"We gained more confidence in ourselves, and realized that we were able to do a great deal more in our church life than we have ever done, after the wonderful encouragement we received at the assembly," said Miss Davis as Miss Poynter agreed with her.

"There were 400 young people, girls and boys, present," Miss Poynter added, "and on Sunday there were 500 in attendance. An interesting program was presented each day and night. We lived in the dormitories at Alabama College, and the programs were held in Palmer Hall, and on the campus.

"At sunset each afternoon vesper services were held," said Miss Davis, "and the campus was beautiful, the big shady trees and the greensward making a perfect setting for the services. Dr. Milam Reeves, of Lena, Miss., conducted these services, which were beautiful.

"Another of the interesting features," said Miss Poynter, "was the forum which Dr. L. D. Patterson, of Bessemer, conducted each evening.

ALABAMA COLLEGE OPENING DATE SET

Increased Enrollment Assured;
Freshman Registration
To Start Term

MONTEVALLO, Ala.—With an increased enrollment, the 1934-35 session at Alabama College is to open Sept. 10 with registration of freshmen. Registration is to continue through Sept. 13, with classes scheduled to begin Sept. 14.

Many vital questions were asked by the young people, and Dr. Patterson answered them so intelligently and so helpfully.

"Some of the questions asked were religious, while others had to do with other subjects. The serious questions and their interpretation were the ones, of course, which interested us most."

A World Friendship

"The first night of the assembly, the feature was world friendship and the group of speakers included Leila Bagley, missionary to Japan, while others were from France, Spain, Italy and Palestine," said Miss Davis.

"Groups which were interested in dramatics, music, glee club groups and others added interest to the program. When we went to the assembly, we thought it would be more of a good time than anything else; but after we attended the different sessions we realized that there was so much more in life than merely worldly things, and we felt like we wanted to revolutionize everything," said Miss Poynter.

"At a personal experience meeting, when everyone was called upon to testify," said Miss Davis, "I felt very timid about giving my testimony. In fact, the first evening I simply couldn't. Later, it seemed equally as hard until finally, during one of these wonderful 'love feasts,' I had the courage to stand up and give my experience. It seemed after that everything was easy. It gave me confidence in myself, and a keen desire to return home and do much more in our Epworth League of 50 members at Walker Memorial Church than I had ever done before. I wanted to tell them all about the great opportunities we young folk have today in the church."

"Dr. Clovis Chappell, pastor of the First Methodist Church, gave a wonderful address on 'Putting Yourself in the Seats of Others,' and made us see how we had not been doing this at all. A class in the 'Christian Use of Leisure Time' was conducted by Mrs. Edwin Branscomb, and another in 'Planning a Department Program' was led by Miss Aileen Moon, of Nashville," Miss Poynter said.

The first faculty meeting is to be held in Palmer Hall at 3 p.m. Sept. 8.

Most of the members of the unusually large freshman class of this year are expected to reach the campus Sept. 9. One hundred selected upper-classmen, outstanding in student activities, are to return to college early to assist new students in their adjustments to campus life. These upper-classmen will meet trains, give information as to campus locations and individual advice.

During the entire first week of the session the orientation program, under the direction of the Student Senate, will continue. Monday night, Sept. 10, the freshmen will be entertained by the senate at a party, while on the following Wednesday night the athletic board will sponsor a supper for the class at the college camp.

A number of campus improvements during the Summer will be noted by returning students and faculty mem-

bers. The major improvement is in main dormitory, the central campus building in location, which has been completely reconditioned and redecorated. This building contains the freshman and sophomore rooms, the dining hall and parlors, in addition to several offices.

In main dormitory two demonstration rooms, decorated by a Birmingham department store, will be observed with interest to new students. The demonstration rooms, planned to suggest proper equipment to freshmen, have already attracted much attention from old students and visitors to the campus. They were opened Aug. 15.

At the faculty meeting Sept. 8, President Carmichael will announce the new faculty members, who will replace the several members who are not returning next session.

Kay-Berry Nuptials Are Solemnized Impressively

A wedding of much interest in Birmingham and throughout Alabama was that of Miss Dorothy Frances Kay to William Thompson Berry, Jr., which took place Saturday morning at the home of the bride's parents, Mr. and Mrs. L. H. Kay, in Norwood. Dr. J. R. Hobbs read the wedding vows in the presence of relatives.

The altar, erected in the sun parlor, was banked with palms and ferns. Tall stands of cathedral candles were used, the tapers being lighted before the ceremony and adding their soft beauty to the scene. Preceding the ceremony a program of music was rendered by Miss Sara Hobbs, who also played Lohengrin's Wedding March.

The bride and groom entered together. The bride's dress was a smart two-piece model in Moca brown crepe with the new braid trim, fastening at the front with rhinestone clips. Her accessories were in harmonizing shades and she wore a shoulder corsage of Johanna Hill rosebuds and lilies of the valley.

Immediately after the ceremony, the young couple left on their wedding trip to the coast.

After finishing high school in Birmingham, where she was active in student activities (being a member of the Glee Club and Dramatic Club and National Honor Society) Mrs. Berry completed her education at Alabama College. She was a member of the Student Senate and graduated from this institution with honors. Mr. Berry, the second son of Dr. and Mrs. W. T. Berry, received his education at Howard College and the University of Alabama. After a short wedding trip Mr. and Mrs. Berry will make their home in Birmingham where they have many friends.

SCHOLARSHIP WINNER

MISS ALICE KENDALL

Miss Kendall, beautiful and talent-
ed daughter of Mr. and Mrs. J. L.
Kendall, a graduate in the 1934 class
at Decatur High School, has been
awarded a scholarship at Alabama
College and has enrolled at Monte-
vallo. Miss Kendall boasts one of
the finest records ever made in a
Decatur high school. An honor stu-
dent, she was prominently identi-
fied with all school activities, being
a member of the Girls Hi-Y Club, as-
sistant art editor of Golden Memo-
ries, the school annual; president of
the French Club, head cheer leader,
a member of the dramatic club and
student council, class secretary and a
letter winner in basketball. Miss
Kendall was elected the most pop-
ular girl by members of her class
and was made an honorary member
of the D Club, boys athletic letter
club. During Youth Week, when
high school students administered
the affairs of the city for a day, Miss
Kendall was elected alderwoman.
Gifted musically, she has shown out-
standing talent in dramatic and com-
mercial art. Assigned the most dif-
ficult part in the senior play, her
performance was brilliant. Several
seasoned players who witnessed Miss
Kendall's handling of the difficult
role declared her to be the greatest
amateur actress they had ever seen.
At Montevallo she will continue her
study of dramatics and art.

BLACK SPEAKER AT MONTEVALLO

MONTEVALLO, Ala. — Senator
Hugo Black addressed the students
and faculty of Alabama College and
a large group of citizens of Monte-
vallo on some phases of the "New
Deal" in Palmer Hall Monday eve-
ning.

This was the first of a series of
programs on that subject, sponsored
by the social science division of the
college. The Montevallo Civic Club
also took an active interest in bring-
ing Senator Black for the address
and in promoting the large attend-
ance of the occasion.

Senator Black delighted the audi-
ence with his vivid illustrations and
clear logic in defending policies of
the "New Deal" as being a forward
step and at the same time within the
contemplated limits of the constitu-
tion. Though admitting that mistakes
have been made, he pointed out nu-
merous examples of improved condi-
tions since the program was
launched.

He spoke at Columbiana Monday
morning.

MONTEVALLO, Ala.—At the conclusion of an effective freshman orientation program and registration of upperclassmen, classes began at Alabama College Friday.

The freshman enrollment for this semester at Alabama College is larger than it has been for several years and the general enrollment has increased correspondingly.

An orientation committee composed of more than 100 upperclassmen returned to the campus early to greet the freshmen on arrival. This committee includes members of these five major campus organizations: the student executive board, senate, Y. M. C. A., athletic board and president's council. It has been in charge of the entertainment of new students and has assisted in the orderly registration.

The entertainment features of orientation included a student senate party, church receptions and a picnic supper sponsored by the athletic board.

The student executive board of Alabama College sponsored an "Echoes of College Night" program Friday evening for the new students.

The stunt and impersonation presented were taken from last year's "College Night" program which was given. Miss Alice Green, of Fairfield, was general chairman of the presentation.

"College Night" is an annual feature in which the entire student body takes part. The program, which is original throughout, is in the form of a competition between two divisions of the student body.

The orientation program, carefully planned by Dr. Minnie L. Steckel, student counselor, and officers of campus organizations, is to continue through the week.

TO PRESENT "TARTUFFE"

Auburn Players Will Offer Their
Most Ambitious Effort

AUBURN, Ala. — By far the most ambitious play yet attempted by the Auburn Players will be their presentation of Moliere's masterpiece, "Tartuffe," here in Langdon Hall at 8 p.m. Wednesday evening, under direction of Prof. Telfair Peet.

Though written by the great French dramatist in the seventeenth century, the play is unique in that the date of the action is not specific—it represents a psychological conflict of human actions that might occur at any time by civilized human beings.

Costumes for the production have been furnished by Dr. Walter H. Trumbauer, Little Theater director at Alabama College.

The leading role of Tartuffe will be taken by James H. Lovelace, of Brewton. Remaining members of the cast are Franklin Woodruff, Rome, Ga.; Sue Morton, Anniston; Dr. Rosa Lee Walston, Auburn; Jewel Martin, Auburn; Velma Blanton, Opelika; R. J. Wood, Bluefield, W. Va.; L. ROBINSON - PEAVY MARRIAGE BEAUTIFUL CHURCH CEREMONY

The marriage of Miss Cullie Hopkins Peavy and Otha Leo Robinson was solemnized at a beautiful and impressive ceremony yesterday morning at 10 o'clock at First Methodist Church. Dr. Oscar Rice, pastor of the church, officiated.

The decoration in the chapel of the church enhanced the beauty of the bridal scene. Within the chancel there was pyramid banking of palms and cybotium fern. Against this gleaming background burning tapers in wide-spreading standard candelabra, and the center was marked by a lovely arrangement of snowy chrysanthemums, showered with white roses.

The musical program was a beautiful feature. Miss Katherine Davis, organist, and Mrs. C. Guy Smith, contralto, were soloists. Miss Davis played wedding preludes during the assembling of the wedding guests. "Traumerei" (Schumann), "Romance" and "Cantilene Nuptiale" were numbers rendered. During the ceremony, "To a Wild Rose" was played. Mrs. Smith sang "At Dawning" (Cadman), and "I Love You Truly." The march from "Lohengrin" was processional. Mendelssohn's march was recessional.

The first of the bridal party to enter were the ushers, who were Hilliard Peavy and Willis Taylor.

The maid of honor was the bride's sister, Miss Edith Peavy. She wore an exquisite adaptation of a model by Jean Patou, developed of cedar green rough crepe, with paisley metallic trimmed collar, caught with a rhinestone ornament. The graceful bell sleeves were faced with the paisley metallic cloth. A Cossack impression was the tunic overshirt, pleated in front with a plain back. The hat which completed the costume was silver sequined worn with a short veil. Her flowers were Joanna Hill roses in arm cluster.

The bride entered with her father, by whom she was given in marriage. They were met within the chancel by the groom and his best man, Heath Cowart.

The bride's beauty was enhanced by her costume which was a Paul Poiret model, developed of porcelain blue crepe, trimmed in rhinestone ornaments of a darker shade of blue. The waistline of the bodice was outlined with the rhinestones. The skirt, on very plain lines, was sheered with tiny, hand-made stitching at the waist, and in contrast to the elaborately trimmed bodice, gave unique and charming effect.

The hat which the bride wore was by Madame Susie, of navy blue, with slight trimming of the soft porcelain blue of the tone of the gown. All the accessories of the costume were handsome and in keeping. Her flowers were Talisman roses, in long cluster.

Both the bride and groom are of families long identified with the history of the South and of Alabama. Paternally and maternally, she is of English descent.

The bride graduated from Lanier High School and attended Alabama College, Montevallo, and Huntingdon College (Womans College).

She is lovely and accomplished and has enjoyed a pronounced popularity.

Mr. Robinson, the son of Mr. and Mrs. William T. Robinson, of Atmore, attended Alabama Military Institute, at Anniston, and graduated from Alabama Polytechnic Institute, with the class of '33.

He was active in all interests at both institutions, and is a member of Kappa Alpha Fraternity.

FACULTY MEMBER OF ALABAMA COLLEGE NEW WOMAN'S GROUP HEAD

Naming A New President For Alabama College

The board of trustees of an institution of higher learning would scarcely look to the student body of the institution for its chief guidance in selecting the chief administrative officer of the college. Members of the board would reason, and rightly, that students might easily be swayed by the personal popularity of the person in question and would not have the mature judgment required for so important and so difficult a task. Further, members of the board could scarcely be expected, in carrying out the function of selecting a new president of a college, to rely exclusively on the wishes of those who have been graduated from the college.

However, a wise board, sensing its trusteeship in the broadest and highest meaning of the word, will give earnest consideration to joint recommendations from student body and former graduates. It is tremendously significant that in the emergency caused by the resignation of President Carmichael, of Alabama College, both students and alumnae are taking so active an interest in the selection of his successor, and it is even more significant that both should look upon Dean Napier as the logical man for the place.

The people of the state as a whole have been impressed by the truly great work Dr. Carmichael has done at Montevallo. The board of trustees almost certainly shares this great pride. What more logical then than that the man who has been a strong arm to the retiring president in accomplishing the tasks on which he has worked so earnestly should be chosen to carry on the great work in which he has been an able and devoted assistant? The student body attests its loyalty to Dean Napier, and the alumnae are actively at work in his behalf. Students and alumnae, devoted to the college as are no others, want to see it go on along the path marked out for it by President Carmichael. They have full confidence in Dean Napier as the person to accomplish this result.

This newspaper is naturally hesitant in suggesting to the board of trustees of Alabama College whom it shall name as president of the college, but it is impressed with the pleas of student body and alumnae alike, and it is impressed with the sheer logic that lies in Dean Napier's selection. The News realizes further that it would be nothing short of sheer tragedy for the conduct of the institution to be placed in the hands of any person other than an educator of distinction, a scholar and an administrator fully sympathetic with the course of Dr. Carmichael has followed. Any suggestion of politics or of political backscratching in the selection of a new president of Alabama College will be profoundly resented not only by student body and alumnae, but by every citizen devoted to the cause of higher education in Alabama.

The News earnestly urges the board of trustees to give full value to all of these considerations in naming Dr. Carmichael's successor and to weigh carefully the effect of such action as they shall decide to take on the future of the institution entrusted to their care.

Honored By Educators

DR. O. C. CARMICHAEL

33 SCHOOLS IN CHARTER ROSTER FOR NEW GROUP

President Of Duke Is Chosen
Temporary President Of
Educational Body

DR. O. C. CARMICHAEL
IS NAMED ON BOARD

ATLANTA, April 6.—(P)—Thirty-three Southern universities and colleges today organized to raise their standards of collegiate and graduate work.

All of the institutions are members of the Southern Association of Colleges and Secondary Schools. The new body is to be known as the Southern University Conference.

President J. R. McCain, of Agnes Scott College, said the 33 members of the new organization would continue as members of the older association but would confine its activities to junior and senior qualifications and to graduate degree work.

Dr. W. P. Few, president of Duke University, of Durham, N. C., was named temporary president.

Other officers to serve until the adoption of a constitution and by-laws are:

President J. L. Newcomb of the University of Virginia, vice-president; J. R. McCain, secretary, and the following executive committee: A. Y. Benedict, president of the University of Texas; J. H. Kirkland, chancellor of Vanderbilt University; O. C. Carmichael, president of Alabama College; and John J. Tigert, president of the University of Florida.

McCain, speaking of the new organization, said:

McCain's Statement

"The matter of an organization to consider the higher under-graduate work and graduate activity in the South has been under consideration for some time.

"Five years ago a committee was named to look into the formation of such an organization as was begun here today and will be completed just as soon as the constitution and by-laws can be drafted and adopted.

"All of the institutions represented in the new conference are members of the Southern Association of Colleges and Secondary Schools and will continue their membership in that body.

"This new conference is interested in proper work necessary for a graduate student to receive higher graduate degrees. It is the raising of this standard that we have set to work to accomplish.

"There is no dissension in the Southern Association of Colleges and Secondary Schools. That organization primarily has interested itself in raising the standard for elementary students and younger college under-graduates. We are only trying to go a step farther and have organized for that purpose. The Association of Colleges and secondary schools has done a fine work and it must be continued.

Part Of Athletics

"As to athletics we are interested in this as far as improved ideals of the higher under-graduates are concerned. However, there are no requirements for membership in the Southern University Conference having any relation to athletics. Membership is to be by invitation after nominations have been made by the executive committee and approved by the conference as a whole."

The conference is composed of the presidents of the institutions. In addition deans and other officers of the members also may attend.

The executive committee named today is to arrange a time and place for the next meeting. Permanent officers then are to be elected and the constitution and by-laws adopted.

The institutions forming the new conference are:

Vanderbilt University, University of North Carolina, University of the South, University of Mississippi, Washington and Lee University, Duke University, University of Tennessee, University of Alabama, University of Texas, Randolph-Macon Woman's College, Tulane University, University of Virginia, Randolph-Macon College, Centre College, Agnes Scott College, University of Georgia, University of Richmond, University of Chattanooga, Millsaps College, University of Florida, Rice Institute, Florida State College for Women, University of Kentucky, College of Charleston, University of South Carolina, Emory University, Davidson College, Wofford College, Mississippi State College for Women, Southern Methodist University, Birmingham-Southern College, Texas Christian University and Alabama College.

Dr. Carmichael's Call To Vanderbilt University

Announcement that Dr. O. C. Carmichael will leave the presidency of Alabama College to become dean of the Graduate School and of the Senior College at Vanderbilt University in the Fall will be received with both pride and regret in Alabama. All Alabama will be proud of the recognition of the personality, scholarship and administrative ability of Dr. Carmichael, while regret will be almost universal over the loss from the state's educational system of one of its outstanding leaders.

No one who has kept at all in touch with Alabama College is unmindful of the really distinguished work Dr. Carmichael has done at Montevallo. He has proved himself an educational statesman in the finest sense of the word. The college has developed, broadened its sphere and advanced the quality of its work until recognition has become general.

At Vanderbilt, one of the South's really great universities, Dr. Carmichael may be expected to gain national recognition for his high qualities as scholar and administrator. All Alabama will wish him well in his new duties and will take great pride in the fact that he has been called to a position of such importance in the educational world.

A great responsibility devolves upon the Board of Trustees of Alabama College, following Dr. Carmichael's resignation. Out of politics under the retiring president's vigilant care, the institution has grown in importance and worth until it takes second rank to no similar institution in the country. His successor should be chosen with the greatest care, and he should be of the Carmichael type. Any suggestion of politics, or of political preferences, or of political debt-paying in choosing the new president will be resented by every thoughtful person in the state. The new president of Montevallo should be first of all a scholar and an educational administrator. The state's institutions of higher learning comprise a sacred trust to the members of their respective boards, and the people will expect the board of Alabama College in choosing a new president to follow the high tradition set by the retiring executive.

Dr. Carmichael leaves Alabama with the good wishes of the whole people and particularly the alumnae of Alabama College, who treasure the way he has administered the affairs of the institution. Mrs. Carmichael, a woman of great tact and charm, will doubtless find a warm welcome in the Tennessee capital. The Federated Clubs of Alabama suffer a great loss in her departure from the state. The Carmichaels have meant a great deal to Alabama. Alabama's farewell to them is a gracious and generous wish that the future years will richly reward them for their fine service to the people of this state.

TO NAME PRESIDENT

Harman, Napier Are Mentioned For Alabama College Post

MONTEVALLO, Ala.—The board of trustees of Alabama College here is to meet Friday afternoon to select a successor to Dr. O. C. Carmichael, retiring president of the women's school.

Dr. A. F. Harman, former state superintendent of education, has been prominently mentioned for the position, although his appointment has been vigorously opposed by various alumnae organizations of the college. Most of the alumnae groups recommended Dean T. H. Napier for the presidency.

Dr. Carmichael has accepted the position of dean of the graduate school at Vanderbilt University.

DEAN T. H. NAPIER

Alumnae Chapter Votes To Urge Trustees, Graves To Consider Napier

A resolution endorsing Dean T. H. Napier, of Alabama College, Montevallo, for president of the institution to succeed Dr. O. C. Carmichael, was adopted Tuesday afternoon by the Jefferson County Chapter, Alabama Alumnae Association.

This endorsement followed similar action by the executive committee of the state alumnae Sunday and the students of the college Monday night.

Miss Dorothy Kitchens, president of the Jefferson alumnae, presided at the local meeting at the Tutwiler Hotel. The group also voted to send letters to the trustees of the college and to Gov. Graves asking that the dean be carefully considered when the new president is chosen.

Dr. Carmichael, president of the institution since 1926, has accepted appointment as dean of the graduate school and senior college at Vanderbilt University.

The student body of the college named a committee to confer with Gov. Graves on the appointment, according to Miss Margaret Vaughn, president.

Meanwhile, in Montgomery, several legislators said efforts were being made "to keep Alabama College out of politics." Representative Reid, of Shelby, in which county Montevallo is located, said a group of legislators was being formed to protest to the governor against the proposal to appoint Dr. A. F. Harman, former state education superintendent, to the presidency.

Besides Dean Napier and Dr. Harman, others mentioned as possible successors to Dr. Carmichael include Dr. H. J. Willingham, president of Florence State Teachers College; Dr. W. C. Dugette, president of Jacksonville State Teachers College; Dr. R. E. Tidwell, University of Alabama extension director; Dean Zebulon Judd, of Auburn, and Clarence M. Dannelly, University of Alabama.

MONTEVALLO, Ala., May 19—The 1935 yearbook, The Technala, of Alabama College was distributed to students and faculty during the past week. It is one of the most interesting volumes produced on the campus and contains many unusual features.

The book is the work of Misses Jessie Forrest and Agnes Postell, both of Birmingham, and editor and business manager, respectively, and their staff of assistants.

It pays tribute in word and picture to leading institutions and their service. The sections include photographs from the campuses of University of Minnesota, Harvard, University of Southern California, Oxford, Gulf Park, Northwestern, West Point, University of Alabama, Princeton and Washington and Lee.

Opening with the feature section, the book announces for the first time the names of the beauties selected some time ago by Octavius Roy Cohen. **Harman Or Napier Seen
As Likely Choice For
Montevallo Presidency**

Dr. O. C. Carmichael, president of Alabama College, Montevallo, has been invited to become dean of the graduate school and the senior college at Vanderbilt University, it was learned here yesterday from an authoritative source.

While State officials who might be privy to negotiations between the Vanderbilt board and Dr. Carmichael refrained from commenting, it was learned that the offer was being held open and was still under Dr. Carmichael's consideration.

In the absence of formal announcement which hardly will be forthcoming until Dr. Carmichael reaches a decision, persons conversant with the matter said Dr. A. F. Harman, former superintendent of education, would likely be elected president of Alabama College, should its present head resign. Dr. Harman retired in January and has not as yet made an official connection.

Another name mentioned prominently as a possible successor to Dr. Carmichael, should he accept Vanderbilt's reported offer, was Dean T. H. Napier, now serving as dean at Montevallo under Dr. Carmichael. Dr. Napier, a Kentuckian, was formerly with Livingston State Teachers College, and was brought to Montevallo by Dr. Carmichael.

Gov. Graves said he could neither deny nor confirm the report.

Dr. Carmichael was offered the presidency of Winthrop College at Rock Hill, S. C., last year but declined the offer. He has been president at Montevallo since 1926.

NASHVILLE, TENN., May 9.—(AP)—Chancellor James H. Kirkland refused to comment tonight on a report that Dr. O. C. Carmichael, president of the Montevallo, Ala., Women's College, had been offered an administrative position at Vanderbilt University.

Saying that "I'm not going to comment on it," Kirkland added, however, that tomorrow he would issue a statement regarding Dr. Carmichael's reported employment by Vanderbilt.

Members of the Vanderbilt faculty who refused the use of their names said they understood Dr. Carmichael had been offered an administrative position at Vanderbilt but said they did not know whether he had accepted.

DR. O. C. CARMICHAEL

MONTGOMERY, Ala.—(P)—Two names were mentioned prominently here Friday as the possible successor to Dr. O. C. Carmichael, president of Alabama College For Women, at Montevallo, who will take an administrative position at Vanderbilt University.

They were Dr. A. F. Harman, former state superintendent of education, and Dr. T. H. Napier, now serving at Montevallo as dean of the college under Dr. Carmichael.

Dean Napier Is Favored By Montevallo Students

Mont. Adv. May 15 '35

MONTEVALLO, ALA., May 14.—(P)—Students of Alabama College want Dean T. H. Napier to be named president of the institution as the successor to Dr. O. C. Carmichael, resigned.

Miss Margaret Vaughn, president of the student body, announced today that the students in a mass meeting in Palmer Hall last night had adopted resolutions urging Dean Napier for the post.

Miss Vaughan said most of the students of the college attended and the vote for the resolution was "almost unanimous."

A committee from the student body, she said, would be named to confer with Gov. Bibb Graves in behalf of Dean Napier.

Dr. Carmichael To Be Dean Of Graduate School And Senior College

NASHVILLE — (P) — Chancellor James H. Kirkland, of Vanderbilt University, Friday announced appointment of Dr. Oliver Cromwell Carmichael, Montevallo, Ala., as dean of the graduate school and senior college at Vanderbilt.

Dr. Carmichael has been president of Alabama College for the past nine years, and at the age of 43 is well known among Southern educators. He has been associated with the Montevallo women's college since 1922.

A native of Alabama, Dr. Carmichael will take an educational position outside of that state for the first time when he comes to Vanderbilt, although his experience has been varied and his training extended to Oxford University, England, where he went as a Rhodes scholar following his graduation from the University of Alabama.

He received an A.B. at the University of Alabama in 1911 and an A.M. in 1914, while at Oxford he took his diploma in anthropology. Subsequently he won a doctorate in literature at Howard College, Birmingham.

From a position with Woodlawn High School, Birmingham, Dr. Carmichael went to the Alabama Women's College in 1922 as dean and assistant to the president. He became president in 1926.

Upon his graduation from the University of Alabama young Carmichael plunged into World War work. Having served during 1914 and 1915 with the Hoover relief commission in Belgium, he joined the British forces in India and in 1916 was appointed honorary captain in the British Army in East Africa.

The following year he went to Princeton on a fellowship, resigning in 1917 to enter the United States Army. He saw service with the Three Hundred Twenty-First Infantry of the Eighty-First Division and with the intelligence section of the general staff.

Dr. Carmichael is a member of Phi Beta Kappa honorary scholastic fraternity.

In announcing Dr. Carmichael's appointment, Dr. Kirkland said the new program to be undertaken marked "an important change in the administrative organization of the college of arts and science."

"Beginning next September," he added, "the graduate work of the college will be administered as a separate school under the direction of a dean and a graduate faculty. This graduate work will be closely integrated with the work of the senior college."

"Dr. Carmichael has been instrumental in giving Alabama College a high standing among Southern institutions. Vanderbilt University is fortunate in securing the services of an educational leader of such distinction for its new program."

Anniston Poets On Montevallo Program

A convention which should be of especial interest to all Alabamians is the four day session of the Alabama Writers Conclave, which meets at Alabama College, Montevallo, June 17-20.

Writers from all parts of the state and from the adjoining states meet in a Conclave of fellowship where they gather inspiration and pass trade secrets to other writers.

Many persons, both men and women, attend these sessions who are not writers, but who are only interested in literary work or in music or art and the sessions are open to anyone who cares to be present. This is a democratic gathering and most informal. One may become a member of the conclave merely by paying the registration fee.

Jean Cameron Agnew, successful play writer of LaFayette, Alabama, is the president this year and Marie Bankhead Owen of Montgomery is the program chairman. Other officers are: Andrew Nelson Lytle of Guntersville, vice president; Annie Mae Hoilingsworth of LaFayette, corresponding secretary; Elizabeth Lee Lusk of Guntersville, recording secretary; Eleanor Evins Stewart of Selma, treasurer; Dr. George Lang of the University of Alabama, parliamentarian; Eugenia Bragg Smith of Montgomery, historian; Dr. Frank Willis Barnett of Birmingham, chaplain and Mary B. Ward of Birmingham, publicity chairman.

Bancroft, director of the Little Theatre of Fairfield and a prize winner of note, Vincent Townsend, city editor of The Birmingham News and instructor in journalism at Birmingham Southern College; Maud Lindsay, of Florence; Dr. J. R. Rutland, Auburn; Dr. W. F. Melton, Atlanta; Mary Butler, Selma, well known for her juvenile stories and features; Maud Harris Hudson, Selma, the dean of drama for the conclave, who in addition to being a play writer is a director of the Little Theatre of Selma.

Maud Hudson Plans Drama Program At Conclave

When Maud Harris Hudson was chosen dean of drama for the Alabama Writers Conclave it was a most happy choice. Mrs. Hudson is well known in Alabama, but when the conclave reporter wanted an intimate sketch or "close-up" of Mrs. Hudson she went to Miss Mary Butler, one of Mrs. Hudson's intimate friends, for copy.

"Maud," said Miss Butler, "is a human dynamo, and when one sees a dynamo, slender, petite, blue-eyed and crowned with a mop of unruly black curls, one wonders how so diminutive a woman could do all the things she does. For Maud Hudson is a wife, a mother, a homemaker, a business woman, a club worker, a poet and a dramatic director.

"Maud isn't a native Alabamian; she came to us from Jackson, Miss., as the bride of Septimus Hudson about 18 years ago. Her early life was spent in a literary atmosphere; her father was the editor of a newspaper, and Maud knows the newspaper game from the sticks of type on up to the editorials. She imbibed printer's ink with her nursery milk, and her earliest memories are of browsing in an old library which belonged to her grandmother.

"In 1919 Maud Hudson came to live in historic old Summerfield, just nine miles north of Selma. But so completely has she identified herself with the business, cultural, and esthetic life of Selma that one looks upon her as a native of that aristocratic old town.

"Essentially Southern, primarily feminine and altogether artistic, her gifted pen turned early in life to the writing of verse. As a charter member of the Student Writers' Club of Selma, she has contributed not only years of fine service in an executive capacity, but she has enriched the annals of the club with many of her lovely poems, some of which have appeared in the Anthology of Alabama Poetry, in Verse-craft, and in many newspapers over the state.

"Her versatile genius has been shown in the past two years as president and director of the Craig Court Players of Selma. This group of amateur actors has put on some remarkable plays which have won for the director an enviable reputation as a dramatic coach."

A member of the first Alabama Writers Conclave, Mrs. Hudson has given the best of her energy and personality to the programs of that organization for many years. This year, as Dean of the Drama, she will preside over the program to be presented on the evening of June 19. Maud Hudson has injected much of her artistic temperament, her remarkable energy, and her dynamic personality into this program, which bids fair to make the 1935 Conclave one of outstanding character.

Following out the idea conceived by Jean Cameron Agnew, president of the 1935 Alabama Writers' Conclave, that each department present the best work done by Alabama writers during the current year, Mrs. Hudson, is presenting in a drama festival the evening of June 19, at Alabama College, Montevallo, three of the best one-act plays written by Alabamians during the year.

Three outstanding dramatic groups of the state have been invited to stage these plays, which insure an interesting and thoroughly

artistic presentation. The plays selected by Dr. William Trumbauer and his committee of judges and turned over to Mrs. Hudson who arranged for their presentation, are as follows:

"Twilight," by Jack Barefield, of Birmingham, to be staged by the Auburn-Opelika Community Players, under the direction of Charles Floyd.

"Antiques," by Harry W. Reid, of Selma, to be staged by the Craig Court Players of Selma, under the direction of Maud Harris Hudson.

"One Mad Morning," by King, to be staged by the Fairfield Little Theater, J. W. Bancroft, president.

President's Picture To Be Placed In Alabama College

Mrs. Charles B. Jaynes, who has the distinction of having been a committee chairman on the program of the Alabama writers' conclave since the first year of this organization, will have charge of placing the picture of Jean Cameron Agnew, the president, in the photograph gallery at Alabama college, Montevallo, during the June 17-20 convention of this organization.

Mrs. Jaynes, who is a prominent clubwoman, has served the Alabama Poetry society as vice president and social chairman and the Birmingham Writers' club as secretary, social chairman and president, most efficiently. She has been for years a successful writer of words and music for secular and sacred songs and has won prizes through the Alabama Federation of Women's Clubs and a prize for the best essay on Birmingham products at the first food show ever held in that city. She is a member of the National League of American Pen Women.

It was in 1923 that Mrs. Jaynes conceived the idea of a photograph gallery as a permanent record of the conclave presidents. This idea was placed before the executive board, where it met with enthusiastic approval of all.

Dr. O. C. Carmichael, president of the college, very graciously set aside space in the college library for this purpose, where photographs of the founders, Dr. Palmer, Mary Staten Gilmore, Katherine Hopkins Chapman, as well as all presidents now hang, in frames of uniform size and color, and will repose as long as the handsome brick building stands.

This gallery was unveiled by Dr. O. C. Carmichael, Jr., and Fred Henry Carmichael, sons of Dr. and Mrs. Carmichael.

This, the thirteenth year, there will be added the photograph of Jean Cameron Agnew, of LaFayette, Ala., the current and very capable president.

Each year there is a short program enjoyed by all the members and friends of the conclave in honor of the current president when her photograph is hung. Mrs. Jaynes in charge.

Alabama College Head Says

Adequate School System

In State Needed

B. News Oct. 2-35

BESSEMER, Ala.—Alabama should have an adequate school system, especially in the public schools, for they are the seed corn of education, Dr. A. F. Harman, president of Alabama College, stated at the Lions Club Tuesday, speaking on education.

Dr. Harman declared if there should be any failure of support of schools, he believed it should be in the higher institutions of learning, or even in high schools, rather than the elementary schools.

"The United States is the least taxed country in the world for education," he said, "and Alabama is the least taxed of the states. We had a great educator whose figure is in the Statuary Hall, and he said, 'Too poor to educate! Too poor not to educate.' Alabama needs an adequate school system."

Dr. Harman stated all young people from Alabama who wanted to go to higher institutions of learning should be able to have that provision, declaring that not all would take advantage of it. Those who are not in earnest are soon eliminated, he stated, they eliminate themselves.

"I propose to run Alabama College along democratic lines," he declared, turning to a discussion of the college of which he had been president one month, he said. "There will be no reserves set up and no secret processes. We will not build up reserves out of the pockets of the people of this state through secret processes, but shall spend the money we receive in the college. If there should be reserves, we shall inform the Legislature so that the appropriation may be adjusted."

The office of state secretary of education should be taken out of politics and the holder should have a longer tenure of office, Dr. Harman declared, in order to guide education in the state. Outstanding leadership was needed, which required non-political appointment and a larger salary, he stated.

Dr. Harman was introduced by J. E. Bryan, superintendent of schools, and H. H. King arranged the program.

Montevallo Changes Presidents

CHANGE AT ALABAMA COLLEGE OF NATION-WIDE SIGNIFICANCE
Harman Succeeds Carmichael, Who Becomes Graduate Dean at Vanderbilt

THE resignation of Dr. O. C. Carmichael, as president of Alabama College, Montevallo, and the appointment of Dr. A. F. Harman, former State Superintendent of Education, as his successor, effective September 1, are matters of educational importance throughout the nation. Dr. Carmichael leaves Alabama to become Dean of the Graduate School and Senior College at Vanderbilt University. According to published reports, Dr. Carmichael is said to be in line for the presidency of Vanderbilt within the next few years.

Dr. Harman was elected president of Alabama College at a meeting of the Board of Trustees of that Institution, held in Montevallo, on May 24, following his resignation last January as state superintendent of education.

Dr. Carmichael holds two degrees from the University of Alabama and a diploma from Oxford University, England. He taught at the State Teachers Normal School at Florence and at Woodlawn High School, Birmingham, before being appointed Dean and Assistant to the President at Alabama College in 1922. Following the death of President T. W. Palmer, Dr. Carmichael was elected president in 1926.

During the past nine years Dr. Carmichael has established a reputation as one of the South's ablest educators in the field of higher education. He is known to be a scholar of wide attainments, a conservative but resourceful thinker, a speaker

of persuasiveness, and a man of charming personality. In his removal from Alabama the state loses one of its strong educational leaders.

Dr. Harman is a native of South Carolina. He came to Alabama, however, when he was a young man and as a school leader in various capacities became recognized as an educator of vision and of forcefulness. He served as superintendent of schools at Decatur, Florence, and Selma, and in 1920 became superintendent of the schools of Montgomery County. It was while he held this position that he attracted nation-wide attention as an administrator of rural education. Because of this record he has been given various national assignments on educational boards and programs during the past ten years.

In 1928 Dr. Harman was appointed director of the Division of School Administration in the State Department of Education. Upon the resignation of Superintendent R. E. Tidwell, he was appointed as superintendent to fill the unexpired term and in 1930 was elected to a four-year term by popular vote.

Dr. Harman has served as President of the Alabama Education Association and as President of the Department of Rural Education in the National Education Association. He has, also, served one term as Vice-President of the latter organization and is at present a Vice-President of the National Congress of Parents and Teachers. He is known to be an incisive thinker, an aggressive leader, and one of Alabama's most effective platform speakers.

OTHER BUILDING WORK UNDER WAY

New Theater, Improvements
At Alabama College Are
Found On Visit

BY HAROLD I. FISHER
State Editor, The Birmingham News
MONTEVALLO, Ala.—Special distinction in the vast construction program that is in progress over the state is claimed by Montevallo as the result of an unusual project under way here. It is the grade separation overpass being built over the Southern Railway tracks and Shoal Creek which will give Montevallo an entirely new entrance highway. The distinctive feature of this project is the fact the work is one of the first of its kind in the nation under President Roosevelt's monster grade separation program launched a few months ago.

Furnishing employment for some 40 to 50 men and entailing an outlay of approximately \$78,000, the overpass leaves the Montevallo-Callera Highway about a half mile out of town and will sweep in a graceful curve over the railroad tracks and the creek to connect with a street leading directly into the heart of the business district. The overpass itself will be 650 feet long and 20 feet wide. Built entirely of concrete, it will be 60 feet above the creek.

Already two of the massive concrete supports have been completed and work on pouring concrete in another was under way when the project was visited this week in company with Mayor E. S. Lyman, Jr. Forms for half a dozen other supports are being built and the work will be carried forward as rapidly as possible.

Of perhaps equal interest to Montevallo itself is another project nearing completion here, although this one involves private enterprise. This is the new Strand Theater being built by Eddie Watson, which will give Montevallo a picture house with features not found in any other theater in the state.

Theater Is Modernistic
The new theater is a striking example of modernistic architecture, with gleaming white stucco, set off by black trim, featuring the exterior appearance. The theater will be completed within a few days and provides a seating capacity of about 600, with mechanical equipment specially designed to give true fidelity of sound and vision. The building and equipment represent an investment of approximately \$35,000. D. O. Whilldin, of Birmingham, designed the structure. The first interior feature that attracts the visitor is a handsome foyer. Modernistic supports for the comfortable cushioned seats and a broad expanse of walls relieved by attractive glow lights are other features that attract the attention of visitors. These plain walls have a utility purpose to serve in that they are made up of the latest type of acoustical board to promote true sound reproduction throughout the entire house.

Alabama College is getting a large share of the construction work in Montevallo, with two projects under way and another ready to start.

A crew of some 30 workmen is engaged at present constructing a brick hangar on the airport back of the college. On an inspection tour of this and other projects at the college in company with Lucien Giddens, registrar, and the genial grounds superintendent, W. M. Jones-Williams, it was learned that this hangar itself will offer the unusual feature of being equipped for use as a gymnasium by college students.

A smaller construction project under way on the campus is a solarium for use of the biology department. This structure is being added to the rear of Bloch Hall and is nearing completion.

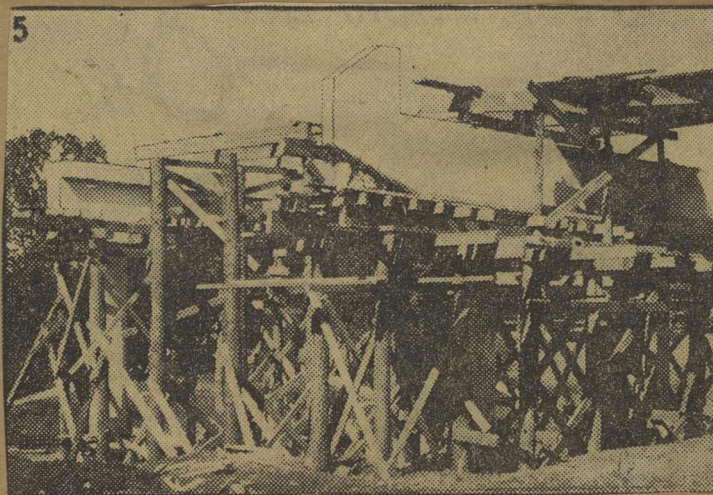

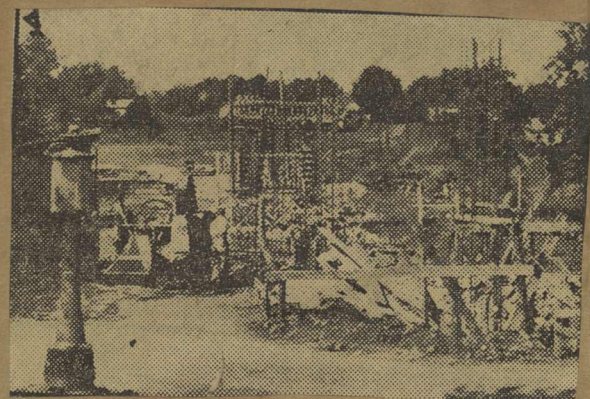

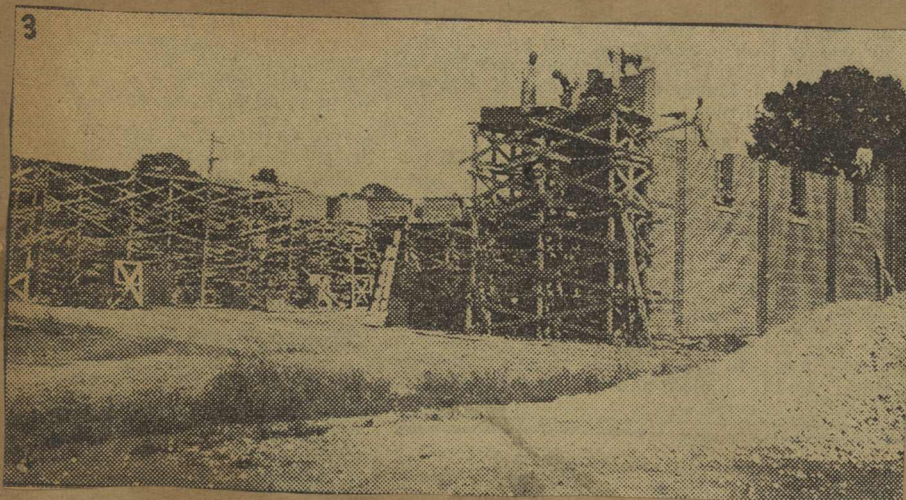

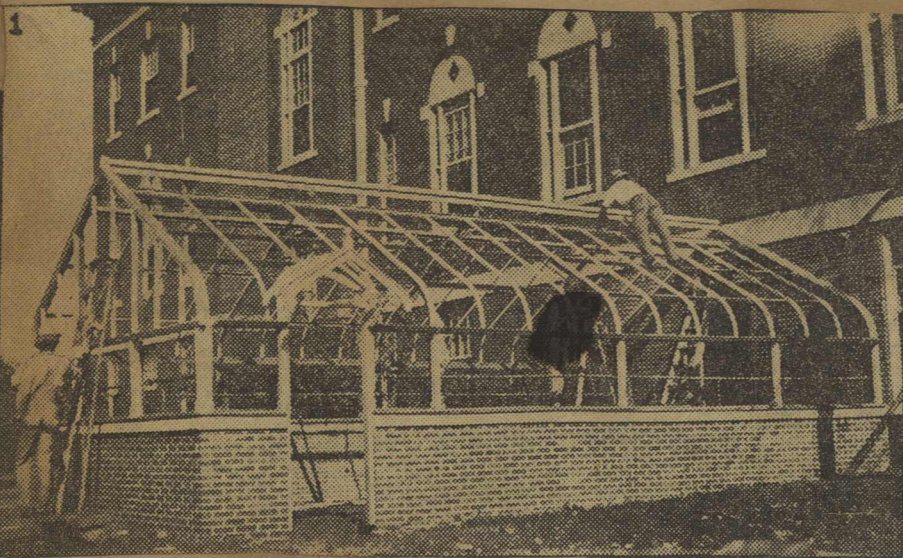

Paving On Campus
The third college project, although this work is not yet under way, will be the completion of paving driveways that wind through the campus. This work was started under the CWA and was carried forward under the ARA. The remainder of the \$20,000 program will be completed under the WPA. All of the paving and curbing is being laid with brick.

Montevallo also is to have a new postoffice building soon, although Postmaster P. C. Wilton was not able to give details of the cost and building design. Purchase of a site at the corner of Main and Vine Streets already has been approved and formal announcement of the appropriation for the building is expected within a short time. Although no official figures have been announced, the general belief among Montevallo residents is that the building will cost about \$60,000 and be among the most attractive structures of its kind in the state.

MONTEVALLO COLLEGE REPRESENTED AT MEET

MONTEVALLO, Ala., Oct. 29.—Miss Anna Irvin, food supervisor at Alabama college, is attending the annual meeting of the American Dietetic association at Cleveland, Ohio. Miss Mary Blazek, also of the home economics department, is also representing the college at the meeting, which will continue through Thursday. A number of noted physicians will give talks on food and special diets, and a group of business men will discuss equipment and accounting in dietetics work. Departmental luncheons and dinners will feature the social program.

MONTEVALLO HAS NEW BUILDING PROGRAM

Miss Lorraine Peter, chairman of the program committee, reported that "Alabama" will be the topic of study for the year.

A chorus, composed of Miss Katherine Farrar, Miss Honor Winer, Miss Sadie Weir, Mrs. O. B. Cooper, Mrs. I. T. Carlton and Mrs. A. W. Vaughan sang four verses of the state song. Mrs. H. D. Lebaron accompanied them at the piano.

The new members were welcomed. Mrs. Lee M. Brook, Mrs. Denison Elliott, Mrs. Burr Nabors, Miss Edith Lindberg, Miss Alexina de Mouey, Miss Lillian Worley and Miss Lennice Vaughan.

Refreshments were served following the program.

Five views of progress of construction projects at Montevallo are shown above. No. 1 is a view of the solarium for use of the biology department of Alabama College, which is nearing completion at the rear of Bloch Hall. The handsome new Strand Theater, being built by Eddie Watson, is shown in No. 2 view. Progress of work on the combination plane hangar and gymnasium at the Montevallo airport adjacent to the college is shown in No. 3. Pictures 4 and 5 are views of work in progress on the \$78,000 viaduct that will span the Southern Railroad track and Shoal Creek to provide a new entrance highway to the city.

COLLEGE IS READY FOR SECOND TERM

Number Of Freshmen From High Schools Expected At Montevallo

B. News Jan. 21 '36

MONTEVALLO, Ala. — Numbers of freshmen, who are finishing high schools of the state this month, are expected to enroll at Alabama College Monday for the second semester. The first classes of the new term will be held next Tuesday.

The new students can begin work in English, history, music, physical education, sciences, home economics, art, psychology, religious education, speech and some courses in secretarial science. They may qualify for the sophomore class by the 1936-37 session on attendance through the next Summer school and be graduated in three and one-half years; or they may attend only in regular sessions and be graduated in January, 1940.

As explained in the college news letter, recently released to prospective students: "In providing broad educational opportunities through its instruction and influence, the college at the same time seeks to train for such specialized occupations as teaching, commercial work, library work, secretarial positions, social service, executive positions in department stores and cafeterias, physical direction and dietetics."

The curricula of the college have been revised within the last three years to enhance the values of courses through their better adaptation to current needs of students and graduates. These changes were based on the desirability of devoting the first two years of college work largely to general or liberal education and the last two to the fields of specialization and related fields.

A large number of extra-curricular activities on the campus between Jan. 27 and commencement, June 1, will have immediate appeal to new students in introducing and adjusting them to college life and traditions. College Nights, Feb. 21 and 22; concerts by the music faculty; recitals of seniors in speech and music; glee club concerts by the college club and visiting singers; debates by varsity and freshman teams; five remaining numbers on the concert and lecture series; many forms of competition and recreation in athletics are pointed out as opportunities into which new students may enter immediately.

Plans For "College Night" Proceed At Montevallo

MONTEVALLO, Ala., Feb. 12—Rehearsals for the seventeenth annual College Night, Feb. 21 and 22, are proceeding at an increasingly exciting pitch in Reynolds and Palmer auditoriums on the Alabama College campus as the rival sides of the student body, the Purples and Golds, prepare for the traditional student event.

Three weeks only are devoted to preparations for the event in which the entire student body participates and which each year draws an attendance of approximately 3,000. The Golds won in 1935 and the Purples the preceding year and the rivalry is tense as the 1936 program approaches.

A feature of College Night is the wholesome sportsmanship resulting from the transitory sides, with the possibility of shifting membership between them in successive years preventing a continuance of the competitive feeling after the decision is announced by the five judges.

There are two general judges and three representing the fields of music, speech and art.

The program is entirely original, every word and note of music and every line and gesture of speech and every color and plan of scenery being arranged by students. The song practices in the opposite rehearsal halls began this week. The presentation includes, besides the music, impersonations, toasts and stunts.

The leaders of College Night this year are Misses Helen Hewell, Mobile, and Mary Nall Kendrick, Selma, assisted by Misses Aileen Holley, Northport, and Billie Hill, Saginaw. Misses Hewell and Holley are in charge of the Golds, and Misses Kendrick and Hill the Purples.

COLLEGE NIGHT REHEARSALS HELD

Keen Competition Marks The Work Of Opposing Groups

MONTEVALLO, Ala. — Rehearsals for the seventeenth annual College Night, Feb. 21 and 22, are proceeding at an exciting pitch in Reynolds and Palmer Auditoriums on the Alabama College campus as the rival sides of the student body, the Purples and Golds, prepare for the traditional student event.

Three weeks only are devoted to preparations for the event in which the entire student body participates and which each year draws an attendance of approximately 3,000. The Golds won in 1935 and the Purples the preceding year and the rivalry is tense as the 1936 program approaches.

A feature of College Night is the wholesome sportsmanship resulting from the transitory sides, with the possibility of shifting membership between them in successive years preventing a continuance of the competitive feeling after the decision is announced by the five judges.

There are two general judges and three representing the fields of music, speech and art.

The program is entirely original, every word and note of music and every line and gesture of speech and every color and plan of scenery being arranged by students. The song practices in the opposite rehearsal halls began this week. The presentation includes, besides the music, impersonations, toasts and stunts.

The leaders of College Night this year are Misses Helen Hewell, Mobile, and Mary Nell Kendrick, Selma, assisted by Misses Aileen Holley, Northport, and Billie Hill, Saginaw. Misses Hewell and Holley are in charge of the Golds, and Misses Kendrick and Hill the Purples.

In connection with College Night, a Gold and Purple hockey game will be held on the athletic field when chosen squads from both sides' membership will try to settle a two-year tie in this event.

"College Night" Program At Montevallo Postponed

MONTEVALLO, Ala., Feb. 25—Rehearsals for "College Night" at Alabama College have been discontinued until March 2, the program having been postponed from Feb. 21 and 22 until Friday and Saturday, March 6 and 7.

In making the postponement, on account of the prevalence of influenza in some sections of the state and to some extent on the campus, it was felt by the administration that a better attendance on the part of students, faculty and visitors would be possible. The program annually draws approximately 3,000 people, making it necessary to devote two evenings to its presentation.

The program includes 16 numbers, prepared and to be presented entirely through student initiative. A decision between the two divisions of the student body, the Purples and Golds, will be rendered by five judges on the basis of songs, stunts, impressions and toasts.

Miss Isabel Henderson, Mobile, will preside as president of the Student Government Association. College Night leaders are Misses

Helen Howell, Mobile; Mary Nell Kendrick, Selma; Aileen Holley, Northport, and Billie Hill, Saginaw.

This is the seventeenth annual College Night and it is expected to bring an unusually large number of alumnae and other guests to the campus. It will begin at 7:30 each evening and will be held in Palmer Hall. Admission is 50 cents.

The second half of his program will be devoted to compositions of Liszt in commemoration of the fiftieth anniversary of his death. It will include: Nocturne No. 3; La Campanella; Erlking and Rhapsody No. 2.

Crowds To Gather At Montevallo For Program

MONTEVALLO, Ala., March 5.—Indications are that Palmer Hall will be crowded to capacity at the presentation of the seventeenth annual College Night at Alabama College Friday and Saturday evenings, the programs beginning at 7:30 o'clock. It was postponed from the original dates of Feb. 21 and 22, and rehearsals were delayed until the first of this week, but the spirit of rivalry between the competing sides is again becoming evident as the final dress rehearsal of Thursday night approaches.

The program of 16 numbers includes impersonations, songs, stunts, and toasts. It will be concluded with the decision of five judges determining whether the Purples or the Golds are victorious in a competition which has been featured through the years by a wholesome combination of keen rivalry and good sportsmanship.

College Night has gained wide recognition through the opportunities which it provides for participation on the part of the entire student body, which is divided by the elected leaders and assistants. The entire program and stage settings are planned entirely on student initiative.

The College Night leaders are Misses Helen Hewell, Mobile, and Mary Nell Kendrick, Selma, and the assistants are Misses Aileen Holley, Northport, and Billie Hill, Saginaw. Miss Isabel Henderson, Mobile, will preside as president of the Student Government Association.

It is the originality of College Night perhaps as much as any other feature that has given it an outstanding place in campus activities and that has given it such drawing power among alumnae and others interested in the institution. Started as a small dining hall entertainment at which the audience consisted only of students and faculty and at which the class presidents were leaders of four competing sides, College Night gradually became so representative of the traditions of Alabama College that its program expanded until it was necessary to give it on successive evenings in order to accommodate the crowds.

The Golds and Purples are using every opportunity in preparation to gain the advantage Friday and Saturday and at the same time to furnish an entertainment which will continue the progress of this traditional event.

The first is a drama of three acts covering the entire career of Joan of Arc, and the second includes a group of outstanding character sketches.

These speakers are admirably
equipped to discuss from their ex-
periences the opportunities of today

of the state. The third such con-
ference for young women enrolled
in the senior classes of the high
schools has been announced for

March 17, 1936

The program will be open to the public. Following the recital, Mr. and Mrs. Ziolkowski will be entertained at luncheon.

Montevallo College Night Leaders

Miss Helen Hewell, left, of Mobile, will be leader of the "Golds," and Miss Mary Nall Kendrick, of Selma, will be leader of the "Purples," in the annual College Night celebration at Alabama College, Montevallo, Friday and Saturday nights.

17th Annual Celebration Will Take Place Tonight And Saturday

MONTEVALLO, ALA., March 5.—(Special)—Indications are that Palmer Hall will be crowded to capacity at the presentation of the 17th annual College Night at Alabama College Friday and Saturday nights, the programs beginning at 7:30 o'clock. It was postponed from the original dates of Feb. 21 and 22 and rehearsals were delayed until the first of this week, but the spirit of rivalry between the competing sides is again becoming evident as the final dress rehearsal of Thursday night approaches.

The program of 16 numbers includes impersonations, songs, stunts and toasts. It will be concluded with the decision of five judges determining whether the Purples or the Golds are victorious in a competition which has been featured through the years by a wholesome combination of keen rivalry and good sportsmanship.

College Night has gained wide recognition through the opportunities which it provides for participation on the part

of the entire student body, which is divided by the elected leaders and assistants. The entire program and stage settings are planned entirely on student initiative.

The College Night leaders are Misses Helen Hewell, Mobile, and Mary Nall Kendrick, Selma; and the assistants are Misses Aileen Holley, Northport, and Billie Hill, Saginaw. Miss Isabel Henderson, Mobile, will preside as president of the Student Government Association.

It is the originality of College Night perhaps as much as any other feature that has given it an outstanding place in campus activities and that has given it such drawing power among alumnae and others interested in the institution. Started as a small dining hall entertainment at which the audience consisted only of students and faculty and at which the class presidents were leaders of four competing sides, College Night gradually became so representative of the traditions of Alabama College that its program expanded until it was necessary to give it on successive evenings in order to accommodate the crowds.

The Golds and Purples are using every opportunity in preparation to gain the advantage Friday and Saturday and at the same time to furnish an entertainment which will continue the progress of this traditional event.

ZIOLKOWSKI IS GIVEN PRAISE

Bham news 3/19/36
Piano Recital Here Gains Audience's Approval

Those who enjoy fine piano music are deeply indebted to the Birmingham Music Teachers Association for presenting M. Ziolkowski, head of the piano department of Alabama College, in recital Wednesday morning at the Tutwiler Hotel.

Mr. Ziolkowski seemed in happy mood, and played a well chosen program of classical and modern music with excellent skill and taste. Opening with the Bach Toccata and Fugue, as arranged by Tausig and Busoni, the artist gave this interesting work an intelligent reading. Then came that most beautiful of all Beethoven sonatas, the Appassionata, which he interpreted superbly, bringing out the rich low tones of the Andante in moving melody, and contrasting the brilliant Allegro Finale with facile technic.

His modern group, Bartok's "Burlesque," and Goosens' "Marionette Show," was cleverly delivered, and his own composition, the "Witches Dance," enchanted his hearers with its brightness and charm.

The closing number, Chopin's "Scherzo" in C sharp minor, was given a very beautiful interpretation, fine shading and artistic conception.

The applause at the close of this program was so insistent the artist had to respond with two encores, one the lovely "Berceuse" (Chopin); and the other, "Prelude in G Major" (Rachmaninoff). Following the program a luncheon was enjoyed by the association and its friends, honoring M. Ziolkowski and his wife.

1,000 TAKE PART IN ANNUAL MEET

Jefferson Participants Walk Away With Honors

Bham At Montevallo

news 4/5/36

BY HAROLD I. FISHER
State Editor, The Birmingham News

MONTEVALLO, Ala. — A thousand Alabama high school girls and their chaperons returned to their homes Saturday at the conclusion of the fourteenth annual inter-high school meet held at Alabama College here. And almost as one, the contestants voted the three-day meet a huge success. College officials also were well pleased with this year's meet, declaring it to be one of the best ever held at the college.

The only disturbing note in the entire three days was chilly weather, which hampered athletic events, but the enthusiasm of the contestants all but brushed aside this factor.

The meet saw a continuous round of activity from the time the program officially opened with a general assembly in Palmer Hall at 1:30 p.m. Thursday until the speech and dramatic finals were decided late Friday. And keen competition marked each of the events, in many cases making difficult the tasks of the judges in deciding the winners.

Although students of the college had been given a three-day holiday so that the visiting high school girls could be lodged in the dormitories, about 100 college girls remained at the school to aid the faculty in supervising the various events and in chaperoning the younger girls.

Most of the contestants were transported to and from the college in school busses from their counties and the bustle of getting away Saturday morning gave the campus the appearance of a huge bus terminal.

Jefferson Wins Prizes

Jefferson County schools walked away with major honors in the various events, among the honors being first in debating by Shades-Cahaba; first in prose reading by Miss Erin Williams, of Bessemer; first in poetry by Miss Eulette Francis, Phillips; first in one-act plays by Ensley High, and first in story telling by Miss Juanita Keller, of Ensley. Jones Valley High also took top honors in several events in the home economics division.

The music division saw a comparatively small entry list, some of the events not even having entries. Although scholarships had been offered in this division, the college had reserved the right to withdraw these awards in case the standards were not high enough to meet the approval of the judges. After hearing the voice and piano contestants, the judges ruled that no scholarships would be awarded.

One sextette from Anniston High was entered and qualified but had no opposition. The sextet by special invitation of the music faculty, sang one number on the final program Saturday night.

All events in the home economics division were divided into groups A, B, and C, with the first class representing schools with an enrollment of more than 200, the second schools of 100 to 200 and the third schools under 100.

The athletic division had been arranged so as to eliminate direct competition between schools, with players from the various schools being assigned to five "continents" and each "continent" represented by "five nations." Competing under the colors of their respective "nations," the girls ran through a busy schedule of events that finally saw "South America" win with a total of 87½ points. Second place went to North America, with 85 points.

1,000 GIRLS AT STATE HIGH SCHOOL TESTS

100 Institutions Represented At Annual
Program At Alabama College

MONTEVALLO, Ala.—More than 1,000 Alabama high school girls with their chaperons, representing approximately 100 high schools, were at Alabama College Thursday morning for the beginning of the fourteenth annual inter-high school meet which will close Saturday morning.

Placing of exhibits in the home economics contest was under way Thursday morning with the official start of the meet scheduled for 1:30 p.m. at a general meeting in Palmer Hall, at which time President A. F. Harman and Dean T. H. Napier were to welcome the visiting high school students and outline the setup for the various contests.

In addition to the home economics contest the meeting will include speech, dramatics, music and athletics. Prof. W. J. Kennerly, head of the chemistry and physics department of Alabama College, is directing the meet.

The four branches of the meet are being directed by the heads of the respective departments of Alabama College. Miss Lois Ackerly, head of the home economics department; Miss Ellen Gould, head of the speech department; Henry LeBaron, head of the music department, and Miss Alfreda Moss crop, head of the department of athletics, are directing the divisional contests. Miss Moss crop is being assisted in the athletic division by Miss Elsa Schneider.

The exhibits in the home economics department being arranged Thursday morning included food preparation and child care and child training. Other exhibits in this branch were home economics year book, high school girl's wardrobe, personal account books and meal planning.

The Thursday afternoon program in the other fields of competition will consist of eliminations in the piano, voice and violin contests. An elimination contest was also scheduled in the speech division, including dramatics, debate and declamation. The athletic contests opened during the afternoon with drawing of names for places on the various teams.

The athletic contests have been arranged on a unique plan that distributes the competitors from

the various schools into five continental divisions. Under these continents are five countries each and the players will compete under the flags of the various nations. This will prevent direct competition among the various schools.

The athletic division launched its program Thursday afternoon with a mass meeting on the campus and the assignment of the competitors to their respective teams. A total of 37 schools and 425 girls made up the athletic division. The only event on the athletic program Thursday afternoon was a treasure hunt. Sixty Alabama College students were aiding in directing the play.

In the home economics division the non-competitive event on food preparation Thursday morning was one of the early features of the meet.

Eliminations in the music contest in which 45 girls from 16 schools are entered also started Thursday afternoon, with members of the musical faculty at Alabama College acting as judges. These contests were being held with the curtain separating the contestants from the judges so that music would be the sole basis of judgment.

Members of the musical faculty were to present a recital Thursday night in Calkins Hall. Faculty members taking part will be M. Ziolkowski, piano; Honor Winer, voice; York Kildea, violin, with Elizabeth Blair Chamberlain as accompanist.

The speech division started with a series of one-act plays in Palmer Hall Thursday afternoon, in which Tuscaloosa, Snead Junior College, Auburn and West Blocton presented their offerings. The one-act play contest was to be completed Thursday night. The debate tournament was also started Thursday afternoon.
